

## UNHOLZ BESTS NELSON

WON HANDILY FROM THE  
BATTLES IN TEN  
ROUNDS.

(By Associated Press.)  
LOS ANGELES, Feb. 4.—Rudolph Unholz won handily from Battling Nelson in a ten-round go before the Pacific Athletic Club here tonight. Under a city ordinance no decision could be given, but there is no doubt of the result. The Boer had all the best of every round in the matter of blows exchanged. He punished Nelson considerably and had him bleeding freely at the nose and mouth almost from the start. Nelson was continually on the aggressive, but his efforts availed him little.

## SUIT AGAINST HEINZE ORDERED

BUTTE, Mont., Feb. 4.—By an order signed by Judge Lynch of the State District Court this morning, Robert M. Lyons, receiver in charge of the Aetna Bank, which failed in October, 1906, is directed to bring suit against F. Augustus Heinze, former director, and A. B. Clements, former treasurer, for \$97,000, held by Heinze in the bank, and which, it has developed, Heinze never paid for. In the recent trial of Clements for false certification, it developed that of the \$100,000 worth of capital stock owned by Heinze, only \$2500 of this was paid in, and that Clements took it himself and gave his note for it, shortly after the amount was received. Judge Lynch's order, authorizing suit for \$97,000, directs that interest from the time of the issue of the stock was not paid for be included in the suit.

The deal appears to have been complicated.

E. A. Heinze owned capital stock in the Aetna Savings and Trust Company, and when that went out of existence, deposits in lieu of cash this stock was exchanged for stock of the Aetna Banking and Trust Company, the concern now in the hands of a receiver.

NEW YORK, Feb. 4.—Importations in stocks fell to the point of stagnation today. ## SHOOT'S HIMSELF FOR OLD CRIME

SAN BERNARDINO, Feb. 4.—Irving H. Brookhouse, through torturings of his conscience because he burned a building in Montana ten years ago to secure the insurance, fired a bullet through his abdomen this afternoon. Physicians give no hope for his recovery, though he may live through the night. Brookhouse for ten years occupied a responsible position with the Armour Packing Company at Chicago and Denver. He came here a week ago and several times was about to confess to Chief of Police Secombe.

This afternoon he went to the Roanoke hotel and registered from Denver. Half an hour later the guests were attracted to his room by a pistol shot. He gave his grip to Chief Secombe, after telling the officer and Rev. Mark B. Shaw of the Baptist church the reason for his wish to die, and asked the chief to mail certain letters after he was dead. One letter is addressed to his father, Robert Brookhouse, at Athol, Mass.

## Prices are Soaring and Market Has a Healthier Tone Than It Has Had in Months.

The stock market of yesterday was reminiscent of the old boom days, and the boom was confined to Tonopah securities. A glance back at the stock list for the past two weeks will make it apparent that we have been moving.

Belmont yesterday sold up as high as \$2.15; Tonopah Extension reached \$1.70, and was a little better than that for a time. Jim Butler touched 48 cents; Rescue 17 cents, Midway 90 cents, MacNamara hovered around the gain she had made a few days since, and the entire market, while it softened at the close, had a healthier tone than it has had for many months.

The market looks good for more reasons than one. In the first place the mines have the ore, and do not need manipulation to send up their prices. Then the mines are on a good working basis, and they are being worked like so many business propositions. Besides this, what looks good about the market is the fact that it comes at such a time. Money is still scarce, but there appears to be plenty to buy good securities.

Local stockbrokers are getting busy again, and they are looking more hopeful, and they are more energetic. As a sign of the times, seven stockbrokers who had stopped the Western Union report from San Francisco, yesterday ordered them in the office again. The telegraph company yesterday put on an additional operator, and restored a clerk. The business of the local office for the month of January was 50 per cent over that of the month before.

The mines are looking better by far than a month ago, and the ore in the Belmont is increasing in quality and quantity. The ledges are widening and the values are increasing.

Tonopah Extension, which has been a mystery for some time back, may be looked for to jump in price at any time, for the crosscut of the 1050-foot level is getting near to where the ore should be found under the dacite. There was no attempt made to account for the sudden rise of yesterday, but it is possible that there has been another good indication found of the proximity of the ore body, for which search has been made more more than a year past.

## Franco's Downfall Is Complete--New Cabinet Is Confirmed to an Abolition of Repressive Measures.

(By Associated Press.)  
LISBON, Feb. 4.—Lisbon is beginning to recover from the shock and horror of Saturday's bloody tragedy, but a strong undercurrent of popular and governmental nervousness remains. The political tension is slackening, although the Progressists refuse to join in the concentration of a Cabinet which Admiral Ferreira Do Amaral is forming from all monarchical groups, because the conservatives are in predominance. Admiral Do Amaral, who assumes power, is committed to a reversal of the entire policy of dictatorship and the abolition of repressive measures and restoration of the "old liberal monarchy." On Saturday, the government, by decree, will withdraw the amnesty accorded to political offenders not implicated in deeds of violence and the embargo on the press will be raised. Franco's downfall is complete. He told a friend that the assassination of the king ended his political career. Practically no headway has been made in the unravelling of the plot on which the murder of the king and the crown prince was but one step. The police now admit that the three men arrested were not involved. Every one of the desperate band, except the three men killed, escaped in the confusion.

The bodies of the king and crown prince will lie in state from late tomorrow until Friday night. Court chamberlains of the late king, members of the royal military household, will keep a constant watch over the bodies of the deceased ruler and his son. The coffins repose in the center of an improvised chapel on a bier covered with rich black velvet, upon which is embroidered a large white cross. At the head of the coffin of the king rests a royal crown covered with crepe, while at the foot lies the late king's sword and helmet. During the entire time the bodies lie in state the forts of the city and the warships in the Tagus will fire salutes at intervals of fifteen minutes. National mourning will be observed by the court and public for three months.

## SEEK TO DISSOLVE HARRIMAN SYSTEM

SALT LAKE, Feb. 1.—A petition in equity seeking the dissolution of the so-called Harriman railroad system in the western part of the United States was filed in the United States District Court for Utah this morning. At the same time the attorneys for the Government, represented in court by C. A. Severance of St. Paul, special assistant to the Attorney-General of the United States, prayed for permission to serve subpoenas on non-resident witnesses, a formal motion, which was allowed by Judge Marshall.

Severance would venture no opinion this morning as to the date when the issues will be joined and the actual trial of the case commenced. The defendants, all but three of whom live outside of Utah, are entitled to twenty days from the date of service to make answer. If they are served before March 1 the answer should be handed in not later than March 20. If service is not secured until after the 1st of March they will have until April 20 to answer, demur or take whatever course of action they may decide upon to meet the blow which has so quickly followed the word of the President in Congress.

## DISCUSS POLITICS IN HOUSE

PRESIDENT'S RECENT MESSAGE  
TO CONGRESS WAS THE  
THEME.

(By Associated Press.)  
WASHINGTON, Feb. 4.—The Senate today passed the urgent deficiency bill carrying an appropriation of over \$24,000,000. The deficiency appropriations for the Panama Canal gave rise to Democratic criticism of the publication in a paper by the Panama Canal Commission, and incidentally, Senator Teller declared he believed the lock canal at Panama would some day be declared a failure and that a sea level canal would take its place.

President Roosevelt's recent message to Congress on the relations of labor to capital and corporations and the public was again the theme of discussion in the House of Representatives today. Interest in today's proceeding was centered in a speech by John Sharp Williams, the minority leader, who, while lauding the president for some of his sentiments, expressed the belief that others were dangerous. After briefly discussing the financial question, Mr. Bonyne of Colorado called attention to what he said was the "absolute insincerity and hypocrisy of the Democratic party, as an organization, in its present attitude toward the President." He quoted several passages from the last Democratic campaign book antagonistic to President Roosevelt and inquired if they accorded with the present Democratic commendation of the President. He charged that "these utterances of Democrats made at this time were simply made for political purposes." A remark that Mr. Cochran endorsed the administration brought a denial from that gentleman, who said the endorsement of a single message was distinct from an endorsement of an administration.
